

# Venture catamaran, mark 2

## VENTURE 15' CATAMARAN

The Venture Cat is one of the fastest sailboats afloat, with speed in excess of 20 MPH (faster than an America's Cup 12 meter). The big sailplan (167 square feet) provides abundant power, even in light winds. This little speedster provides endless excitement, on smooth water or in rough surf. Unlike many catamarans, the Venture tacks quickly and easily. Foam flotation is incorporated

in each watertight hull, and the mast is sealed to make the cat easy to right. The hand laid fiberglass hulls are thick and strong, with heavy reinforcement at all highly stressed areas. The jib can be roller furled while sailing, allowing the sail area to be adjusted to suit varying wind conditions. A raised seat area on each hull helps keep the crew comfortable and dry.

**PORTABILITY.** The Venture Cat can be carried on its small trailer or car topped. It can be easily disassembled (8 bolts) for storage. **NO CENTERBOARDS.** Like most modern cats, hull shape, rather than centerboards, provides the lift necessary to sail close into the wind. There are no centerboard trunks to leak and cause drag, and no centerboard controls to complicate sailing. Even without the centerboards, this cat goes into the wind at high speed with virtually no side slip. **KICK UP RUDDERS.** The depth of the rudders is controlled by raising and lowering the ends of the tillers, making beaching and shallow water sailing a snap.

### STANDARD FEATURES INCLUDED IN THE \$895 PRICE

- Dacron full battened mainsail, with class emblem, blue panel and red racing numbers
- Fiberglass battens (7)
- Anodized aluminum mast, boom, cross bars
- Mahogany kick up rudders
- Heavy duty trampoline
- Non skid deck surfaces
- Main sheet, blocks and jam cleat
- White hulls and decks with blue cove stripes
- Rotating sealed mast (in telescoping sections for easy trailering)
- Stainless steel hardware and rigging
- Positive foam flotation
- Waterproof storage compartment
- Hinged mast step

### PRICES OF OPTIONAL ITEMS

- Jib, for class racing, with roller furling system and all related lines, cam cleats and rigging ..... \$99
- Boom Vang ..... \$16
- Hiking straps ..... \$19
